

MR1735-83/DIV

Appl. No.

Preliminary Amendment dated 23 December 2003

**REMARKS**

This Preliminary Amendment is being filed to amend the Title of the Application filed concurrently herewith, to conform to the Claims being prosecuted in this Application.

In the parent Application, Serial #10/122,228, filed 16 April 2002, both apparatus and method Claims were originally filed. In a First Official Action dated 25 August 2003, the Examiner confirmed Applicant's election to the Examiner's Restriction Requirement, electing to prosecute the apparatus Claims. Accordingly, the above-referenced Divisional Application was filed to prosecute the method Claims. Therefore, it is believed appropriate to conform the Title of the Divisional Application to the subject matter being claimed.

It is believed that the subject Patent Application is now in condition for examination on the merits, and such action is respectfully requested.

Respectfully submitted,
